

My name is Fang Wen Wen, I'm from China. I finished my Advance Diploma in Business Administration and BA (Hons) in International Business Management in Shelton College International. The degree will be awarded by Staffordshire University in United Kingdom!

During these two years' studying in Shelton, I feel so happy. While studying in the school, I grown up and learned by joining many activities which was organized by the school. In the two years, I learned independent learning, independent thinking and independently dealing with problems related to study and life. I make many friends who are from different countries, and understand that there are many different kinds of culture.

My knowledge also improved, I experienced different living custom from different culture. Lecturers in the school are kind; they impart their knowledge to me. By communicating with them, I can understand different thinking and learning ways of different countries.

Through doing examinations and assignments, my English improved. The school canteen provides so many delicious foods to satisfy students come from different countries.

On the management way, school is serious to each student. School takes care of each student about their lives and study situations.

To sum it all up, the two years of studying and living in Shelton and in Singapore have been very satisfying and I am very happy to be part of this big family.

Now, that I have completed my studies, I will be going back to China for a short vacation before deciding on what I want to do next. I hope I have a beautiful future. In the later days, I will work even harder and create my own business.

I firmly believe all my dreams can come true because of what Shelton had imparted to me.

Last of all, I want to thank all the lecturers; staff and students in Shelton College for their care and concern for the past two years.

Best wishes
