

Hi All..

IT's a great honor to write and share my feeling with all of you! I am Phillipov Sergey and I am from Russia. In fact, I started my high school with Shelton College in year 2007.. however, after studying for about a year, I feel that their college pathway were more suitable for me. Therefore, I transferred to Diploma in Business Administration and I'll never look back since!

In the space of almost 2 years, I have completed my Diploma & Advanced Diploma in Business Administration! Within this period of time, I have also completed my Internship with Concorde Hotel!

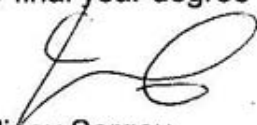

The international atmosphere of Singapore impressed me a lot, and so does Shelton College International. In Shelton, we study with friends from different culture, which open our mind to objectively understand the world.

Apart from these, I feel appreciated to have so many good teachers here. Not just knowledgeable, they always try their best to help every student. In Shelton, we also learn from lecture and social visit, rather than just textbooks. That makes studying fun and valuable.

My internship in Concorde Hotel as one of their front office staff was a great experience for me! This was my first step into the real "working world" and from this internship, I learned to look at things from different perspective. Infact, I feel that after this internship, I matured a lot and am really happy to be part of Shelton College as they are the one who provided me with this opportunity! I believe attitude makes a big difference in our performance.

When I was doing my internship, there were frequent calls from my school to check on my well beings as well as my "coping skills"! Monthly report was a daily "chore" :- ) as I need to write and update to the internship department on a monthly basis! However, I am glad that the school keep a look out for me as from this experience, I know I am not being forgotten by Shelton College.. even though I am doing my internship and not studying in School! Nobody Gets Left Behind.. this truthly reflects Shelton College!

Finally, I'd like to say that I enjoy studying in Shelton College. I am glad to be able to start my final year degree here! Thank you very much to all the teachers and my friends.

Phillipov Sergey
